

that point, been really good mates! Fighting behaviour can be improved by neutering.

If your rabbits are fighting regularly, contact your vet to discuss neutering, separate them, but make sure they can still see and smell each other. Try putting two cages or runs next to each other and swapping them over every few days. Hopefully, once they're neutered, you will be able to reintroduce them.

### My rabbits are humping each other, what should I do?

Mounting behaviour (or humping) is not always related to hormones, and is often a sign that your rabbits are trying to sort out who's boss. Unless your rabbits are humping each other all the time, or it's becoming a problem, don't worry too much and don't separate them. Neutered rabbits will often still mount, nip and pull each other's fur from time to time.
