

37% of income from PDSA's gaming activity in 2017 went directly to PDSA. The remaining 63% was used towards recruiting new players and running costs, including the prize fund. This percentage includes activity of our 6 Raffles and our Weekly Lottery plus our income from external draws by Peoples Postcode Lottery (with PDSA as the named direct beneficiary.)

Below shows the breakdown of income and expenditure for PDSA's in-house Gaming activity (Raffles and Weekly Lottery) which in 2017 raised over £1.6m and helped treat over 470,000 pets. 80% of the money raised from PDSA's own Raffle and Weekly Lottery helps pay directly for the 13 sick or injured pets we treat every single minute – thank you!
