

Printable Pumpkin Carving template

Adjust your print settings accordingly to fit the size of your pumpkin. Of course, you don't have to follow the template exactly. You could skip the ears or add your own details!

Pumpkin carving instructions

- 1 Cut a hole in the top for the lid
- 2 Use a spoon to hollow out your pumpkin and remove the seeds and string from inside
- 3 Scrape some of the flesh from the inside so your pumpkin is about an inch thick all the way round
- 4 Cut out template and place onto pumpkin in desired place with tape or pins
- 5 Use a pumpkin carving tool or small knife to poke holes around the template
- 6 Use your tool to follow along the line, remove the middle and smooth out as necessary
- 7 Make sure to share your pumpkin on social media and tag us [@teampdsa](#) – we'd love to see them!

TOP TIP!

When carving a pumpkin, a knife isn't always the best tool to use for getting into those smaller spaces and corners and cleaning them out. Instead, try things like pencils, Allen keys, screwdrivers etc
